

SP 42.2, Post-Award Cost Audits

Substantive changes made for the 3-9-06 version:

1. Deletes references to LLNL and LANL in order to convert this to a LBNL-only SP.
2. Clarifies that the procurement specialist makes the determination that a post-performance cost audit is required, not the subcontractor's cognizant government audit agency.
3. Replaces references to "cost-price analyst(s)" with "procurement specialist".
